Evidence Processing - Crime Scene to Courtroom Basics

Register at: **[Evidence Processing: Crime Scene to Courtroom Basics](#)**
or at **www.on-targetsolutionsgroup.com**

This foundational course is designed for any personnel assigned to Patrol, Investigations and Fire Scene duties, empowering them to identify, collect and record commonly encountered evidence at crime scenes. Skill sets learned can increase your agency's case clearance rates and successful courtroom prosecution efforts, while simultaneously building public service satisfaction levels and their confidence in investigative efforts.

Training encompasses on-scene application of forensic scientific principles and is presented in a concise-immersive style utilizing lecture and hands on exercises. Upon completion attendees will be able to perform basic crime scene processing and recovery efforts.

- Note: Individually owned flashlight use is encouraged during classroom practical exercises. Students can bring any other available camera or forensic equipment to build confidence-familiarity of use during the training. Practice materials will be provided at the training.

"Instructor was knowledgeable, experienced and had examples of application in his career. The tricks of the trade will save me hours, days and cases. It will save headaches for me, and more headaches for defense attorneys."

Det. Timothy Spitzer, Galesburg PD

"It was obvious the instructor not only knew the material but was also passionate about it. I really enjoyed the class. Went beyond my expectation due to the knowledge and and experience of the instructor."

Ofc. Patrick Barnes, Glen Carbon PD

"Great use of personal experiences. Far more training and experience (and passion) than any instructor I have had in many years. Fantastic introductory course. Training materials were top notch." **Forensic Technician David Freudiger, Norman (OK) PD**
