Evidence Storage and Management: Operations and Best Practices

**Register at: Evidence Storage and Management
or at www.on-targetsolutionsgroup.com**

Who should attend: This seminar is designed for both civilian/sworn personnel with custodial duties and those responsible for the management of these functions including supervisors and executives. Agency size often impacts involved storage variables - presented materials can identify employable options to preserve evidence integrity from unwarranted courtroom challenges.

These often out of sight - out of mind minutia level duties, if neglected have insidious damage potentials. Criminal prosecution efforts combined with an agency's public reputation and simultaneously the careers of its Chief/Sheriff downwards to assigned custodians have repeatedly been irreparably damaged for failing to continuously and appropriately manage this assignment.

Systematic evidence storage duties are often assigned with little or no functional training. The involved transactional procedures require efforts uncommon to other business type storage facilities. This one-day best practice course is designed for managing a professional evidence storage operation.

Note: Attendees are encouraged to bring related hypothetical incident concerns for educational process review among their peers.

Topics Include:

- Gatekeeper/Right of Refusal Concepts
- Safety Aspects
- Integrity Packaging
